

SURROGACY PRICING INFORMATION

Valid from April 2024

Prices are valid from 1st April 2024
and will be reviewed on 31st December 2024.

Please ensure that before making treatment decisions you have
confirmed all fees with the accounts department.

Separate price lists are available for our
egg donation and fertility services.

**LISTER FERTILITY CLINIC AT
THE PORTLAND HOSPITAL**

part of **HCA** Healthcare UK

WELCOME

The Lister Fertility Clinic at The Portland Hospital provides a dedicated surrogacy team to look after you and your surrogate throughout your treatment journey. Our surrogacy team provides specialist continuity of care and personalised support throughout the different steps of treatment.

In your first appointment at our clinic, we'll decide together how best we can help you. During your initial consultation you can find out more details about the screening tests, investigations and treatments involved. We try to combine as many of your appointments as possible to minimise the number of times you need to visit us, so your first appointment could include meeting with a doctor, a fertility counsellor and a dedicated surrogacy nurse.

Whenever you're ready to grow your family, we are here to help. Our counsellors will provide continuous support before, during and after your treatment, for you and your surrogate.

We can also assist you if you need donor sperm or egg donation.

CONTENTS

HETEROSEXUAL SURROGACY PATHWAYS

- 4 Fresh eggs and sperm
- 5 Frozen eggs
- 6 Frozen embryos
- 7 Fresh eggs and donor sperm
- 8 Frozen eggs and donor sperm
- 9 Donor eggs and partner sperm

TWO DADS SURROGACY PATHWAYS

- 10 Donor eggs and either partner's sperm

SINGLE WOMAN SURROGACY PATHWAY

- 11 Fresh eggs and donor sperm
- 12 Frozen eggs and donor sperm

SINGLE MAN SURROGACY PATHWAY

- 13 Donor eggs and own sperm

KEY TO SURROGACY PRICING

a:
Intended Father screening (stage 1): full blood count, virology (HIV/HBsAg/HBcAb/hep C), HTLV, CMV (IgM+IgG), blood group, cystic fibrosis, chromosome karyotype, chlamydia, gonorrhoea, syphilis, haemoglobinopathy, sperm culture and sensitivity.

Excludes:

- Screening for malaria, T.Cruzi, Tay-Sachs and rectal swab for gonorrhoea, chlamydia and hep A if required depending on clinical circumstances.
- £300 lab fee applies for blood preparation for overseas export

b:
Intended Mother screening (stage 1): Syphilis, virology (HIV/HBsAg/HBcAb/hep C), HTLV, CMV (IgM+IgG), blood group, full blood count, cystic fibrosis, chromosome karyotype, chlamydia, gonorrhoea, haemoglobinopathy.

Excludes:

- Screening for malaria, T.Cruzi, Tay-Sachs and rectal swab for gonorrhoea, chlamydia and hep A if required depending on clinical circumstances. Pre consultation tests (AMH) if required.

c:
Intended parent screening (stage 2): NAT PCR for HIV, HBV, HBC.

d:
Includes all cycle monitoring scans, and bloods, nursing and medical review, theatre/ anaesthetic fee, egg collection, sperm preparation, IVF, advanced embryology services, Blastocyst Culture, embryo freeze and first year of storage. Includes Intended Parent planning fee in first cycle.

Excludes:

(see main price list for details)

- Medication
- Further annual storage fees
- PGT-A
- Zymot

e:
Intended parent screening (stage 3) Virology (HIV/HBsAg/HBcAb/Hep C)/donor screening (pre-collection): NAT PCR for HIV, HBV HBC, syphilis, chlamydia, gonorrhoea, HTLV. These may need to be repeated if repeat cycles are performed at more than three-month intervals.

Excludes:

- CMV (IgM+IgG) if previously negative

f:
Surrogate screening: virology (HIV/HBsAg/HBcAb/hep C), full blood count, blood group, rubella, thyroid function, haemoglobinopathy (if applicable), syphilis, chlamydia, gonorrhoea, CMV (IgG+IgM), HTLV. Please note the virology is valid for three months and may need to be repeated before further cycles. Please note: the validity periods of particular blood tests will vary as advised by the surrogacy team.

g:
Includes all cycle monitoring scans and bloods, x2 BHCG and progesterone blood tests, nursing and medical review and transfer. Also includes surrogate planning fee in first cycle.

Excludes:

(see main price list for details)

- Medication

h:
Includes all cycle monitoring scans and bloods, nursing and medical review, egg thaw, sperm preparation, advanced embryology services, ICSI, Blastocyst Culture, embryo freeze, and first year of storage. Includes Intended Parent planning fee in first cycle.

Excludes:

(see main price list for details)

- Medication if required
- Further annual storage fees
- PGT-A
- Zymot

i:
Includes three samples for freezing and the first year of storage.

Excludes:

(see main price list for details)

- Further annual storage fees
Note: only one storage fee will apply for both male partners.

j:
Initial donor screening: virology (HIV/HBsAg/HBcAb/hep C), HTLV, syphilis, chlamydia, gonorrhoea, cystic fibrosis, chromosome karyotype, blood group, haemoglobinopathy, full blood count, CMV (IgG+IgM).

Excludes:

(see main price list for details)

- Donor consultation and pre-consultation tests if required (AMH/scan)

k:
Includes all monitoring bloods, donor cycle monitoring scans, nursing and medical review, theatre/anaesthetic fee, egg collection, sperm preparation, IVF advanced embryology services, Blastocyst Culture, Embryo Freeze and first year of storage. Includes Intended Parent planning fee in first cycle.

Excludes:

(see main price list for details)

- ICSI/IMSI if required
- Further annual storage fees

l:
Includes sperm preparation, IVF, Blastocyst Culture, embryo freeze and first year of storage. Includes Intended Parent planning fee in first cycle.

Excludes:

(see main price list for details)

- ICSI/IMSI if required
- Further annual storage fees
- PGT-A

*Session 1: Intended Parents, session 2: surrogate (& partner if applicable), session 3: Intended Parents and Surrogate jointly.

** £500 refunded if no blastocyst.

*** Session 1: Intended Parent, session 2: completion of donor consent, session 3: surrogate (& partner if applicable), session 4: Intended Parent and Surrogate + partner jointly.
