

Egg donor pricing information

Valid from 1st February 2026

Prices are valid from 1st February 2026 and will be reviewed on 31st December 2026.

Please ensure that before making treatment decisions you have confirmed all fees with the accounts department.

Separate price lists are available for our fertility and surrogacy services.

Welcome

At Lister Fertility Clinic, we run a dedicated egg donation programme that is one of the longest running and most successful in the UK.

We know the emotional strain that infertility can place on people, particularly when egg donation is part of their treatment journey. Our dedicated egg donation team, whose key members have worked in the Lister Fertility Clinic for many years, provide the continuity of care and emotional support that is essential to your experience.

We're proud of the partnerships we have at Lister Fertility Clinic, especially our new international partnerships. We carefully screen anyone or any groups that we work with, so you can rest assured that you will receive the best care on any treatment journey you undertake through our clinic.

We're here to help you grow your family whenever you're ready, whatever your circumstances.

Recipient female screening tests ^{†a}	£705
Recipient male screening tests ^{†b}	£276.80

* Lister egg bank uses eggs imported from an HFEA approved clinic in Cyprus

* The Egg Bank (ISIS/OVACY) offers 6 further eggs without charge should certain treatment markers not be met in your treatment cycle:

- 2 available Blastocysts
- Pregnancy with non-blastocyst transfer

This is dependent on certain sperm quality requirements (a minimum of 5 million total motile sperm cells with normal morphology at treatment).

Although supplementary eggs are free of charge by the egg bank, the Lister Clinic will apply a treatment charge for the thaw and transfer cycle as per the Standard IVF price list.

Should you choose to use eggs purchased directly from another licenced provider and import to Lister Fertility Clinics, we will charge an import and egg thaw cycle fee as per the main price list, plus admin fee.

Recipient Cycle using Known Donor

Treatment package	£8,465
Triage by OD coordinator	Part of treatment package
Implications counselling for recipients +	
OD team consultation - recipient
