Lister Fertility Clinic

Prices are valid from 1st May 2025 and will be reviewed on 31st December 2025.

Please ensure that before making treatment decisions you have confirmed all fees with the accounts department.

Separate price lists are available for our fertility and surrogacy services.

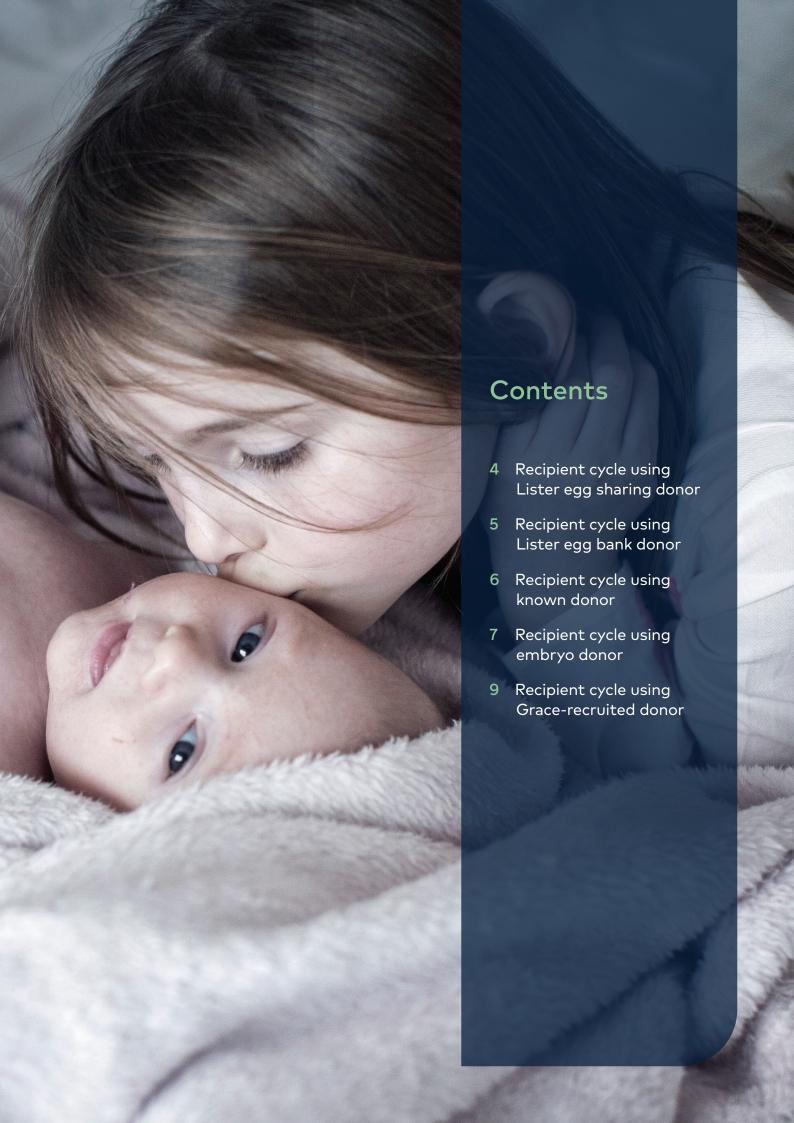

At Lister Fertility Clinic, we run a dedicated egg donation programme that is one of the longest running and most successful in the UK.

We know the emotional strain that infertility can place on people, particularly when egg donation is part of their treatment journey. Our dedicated egg donation team, whose key members have worked in the Lister Fertility Clinic for many years, provide the continuity of care and emotional support that is essential to your experience.

We're proud of the partnerships we have at Lister Fertility Clinic, especially our new international partnerships. We carefully screen anyone or any groups that we work with, so you can rest assured that you will receive the best care on any treatment journey you undertake through our clinic.

We're here to help you grow your family whenever you're ready, whatever your circumstances.

Recipient Cycle using Lister Egg Sharing Donor

Treatment package	£9,180
Triage by OD coordinator	
Implications counselling for recipients	
OD team consultation	
Screening checklist and treatment plan	
HFEA fee	
Donor screening	
Donor stimulation medication	Part of treatment package
Donor stimulation bloods	
Donor egg collection	
Recipient monitoring scans	
Donor / recipient cycle management	
Sperm preparation and standard IVF fertilisation	
Recipient embryo transfer (or freeze if no transfer)	
Package excludes	
Waiting list enrolment fee / egg bank (non-refundable, per cycle)	£550
Monitored cycle (if required)	£750
Monitored cycle medication (if required)	£200-£550 (average £300)
OD cycle medication for recipient ^c	£200-£550 (average £300)
Supplementary Embryology Services including Time-Lapse embryo assessment used routinely in all cycles and blastocyst culture / Al assessment tools / embryo glue where applicable	£1,090
Example cost**	£12,170
Potential additional cost	
ICSI	£1,490
IMSI	£1,980
Embryo freezing including 1st year storage (if applicable)	£940
Recipient female screening tests ^{ta}	£641
Recipient male screening tests ^{tb}	£264

Recipient Cycle using Lister Egg Bank Donor*

Treatment package	
8 frozen eggs	£10,695
10 frozen eggs	£12,635
12 frozen eggs	£14,580
Triage by OD coordinator	
Implications counselling for recipients	
OD team consultation	
Access to donor bank information / matching process	
Donor screening / counselling ^f	
OD management of egg transfer / donor sign off	
Egg import fee and registration	
Screening checklist and treatment plan	Part of treatment package
HFEA fee	
Recipient monitoring scans	
Recipient cycle management	
Egg thaw	
Sperm preparation	
ICSI fertilisation of eggs	
Embryo culture and transfer (or freeze if no transfer)	
Package excludes	
Waiting list enrolment / egg bank fee (non-refundable, per cycle)	£550
OD cycle medication for recipient ^c	£200-£550 (average £300)
Supplementary Embryology Services including Time-Lapse embryo assessment used routinely in all cycles and blastocyst culture / Al assessment tools / embryo glue where applicable	£1,090
Example cost" (8 eggs)	£12,635
Potential additional cost	
Supplementary IMSI	£490
Embryo freezing including first year storage (if applicable)	£940
Recipient female screening tests ^{ta}	£641
Recipient male screening tests ^{tb}	£264

- * Lister egg bank uses eggs imported from an HFEA approved clinic in Cyprus
- * The Egg Bank offers 6 further eggs without charge should certain treatment markers not be met in your treatment cycle:
 - 2 available Blastocysts
 - Pregnancy with non-blastocyst transfer

This is dependent on certain sperm quality requirements (a minimum of 5 million total motile sperm cells with normal morphology at treatment).

Although supplementary eggs are free of charge by the egg bank, the Lister Clinic will apply a treatment charge for the thaw and transfer cycle as per the Standard IVF price list.

Should you choose to use eggs purchased directly from another licenced provider and import to Lister Fertility Clinics, we will charge an import and egg thaw cycle fee as per the main price list, plus admin fee.

Recipient Cycle using Known Donor

Treatment package	£8,100
Triage by OD coordinator	
Implications counselling for recipients	
OD team consultation - recipient	
Implications counselling for donor	
OD team consultation - donor	
Joint counselling for recipients and donor	
Screening checklist and treatment plan	
HFEA fee	Part of treatment package
Donor stimulation medication	
Donor stimulation bloods	
Donor egg collection	
Recipient monitoring scans	
Donor / recipient cycle management	
Sperm preparation and standard IVF fertilisation	
Recipient embryo transfer (or freeze if no transfer)	
Package excludes	
Recipient	
Monitored cycle (if required)	£750
Monitored cycle medication (if required)	£200-£550 (average £300)
OD cycle medication for recipient ^c	£200-£550 (average £300)
Supplementary Embryology Services including Time-Lapse embryo assessment used routinely in all cycles and blastocyst culture / Al assessment tools / embryo glue where applicable	£1090
Donor	
Donor AMH and scan	£131 / £225
Donor initial consultation (up to 60 min)	£250
Donor initial screening (6 month validity) ^d	£1,706
Donor pre-treatment screening ^e	£761
Example cost**	£13,613
Potential additional cost	
ICSI	£1,490
IMSI	£1,980
Embryo freezing including 1st year storage (if applicable)	£940
Recipient female screening tests ^{ta}	£641
Recipient male screening tests ^{†b}	£264
Donor compensation fee (paid to donor if requested)	£750

Recipient Cycle using Embryo Donor

Treatment package	£5,940
Triage by OD coordinator	
Implications counselling for recipients	
OD team consultation	
Screening checklist and treatment plan	
HFEA fee	Part of treatment package
Donor screening	
Recipient monitoring scans	
Donor / recipient cycle management	
Recipient embryo transfer	
Package excludes	
Cycle medication for recipient ^c	£200-£550 (average £300)
Example cost**	£6,240
Recipient female screening tests ^{ta}	£641

NOTE:

Should the embryos not survive the thawing process, you will be eligible for a full refund of the above treatment package cycle fee (excluding medication and blood tests).

Key for Egg Donation prices

a) Recipient female screening tests (initial)

- Virology (HIV 1&2, Hep B core antibodies, Hep B surface antigen, Hep C antibodies)
- Thyroid profile
- Full blood count
- CMV IgG and IgM
- Blood pressure
- Chlamydia
- Rubella IgG

b) Recipient male screening tests (initial)

Virology (HIV 1&2, Hep B core antibodies, Hep B surface antigen, Hep C antibodies)

c)

 OD cycle medication for recipient types of medication: Synarel nasal spray, Suprecur nasal spray, Suprecur injections, Progynova, Cyclogest, Vagifem, Estraderm Patches, Aspirin, Viagra, Prontogest

d) Donor initial screening (6 month valid)

- HIV 1 & 2, Hepatitis B Surface antigen, Hepatitis B Core antibody and Hepatitis C antibody
- VDRL (syphilis)
- HTLV | & II
- CMV IgG & IgM
- Chlamydia
- Gonorrhoea
- Full blood count
- Thyroid profile
- Blood group
- Cystic fibrosis (CF)
- Chromosome study
- Haemoglobinopathy
- Rectal swab[†]
- Tay-Sachs disease if Jewish[†]
- Cervical smear[†]
- Trypanosoma cruzi (American trypanosomiasis)†
- Malaria[†]
- Zika†

e)

Donor pre-treatment screening

- HIV 1 and 2, Hepatitis B and Hepatitis C (NAT-PCR)
- HIV 1 &2, Hepatitis B surface antigen, Hepatitis B core antibody and Hepatitis C antibody
- VDRL (syphilis)
- HTLV I & II
- CMV IgG & IgM
- Chlamydia
- Gonorrhoea

f)

Lister egg donor screening / counselling

- HIV 1 &2, Hepatitis B surface antigen, Hepatitis B core antibody and Hepatitis C antibody
- VDRL (syphilis)
- HTLV I & II
- CMV IgG & IgM
- Chlamydia
- Gonorrhoea
- Full blood count
- Blood group
- Cystic fibrosis
- Chromosome study
- Haemoglobinopathy
- Tay-Sachs disease if Jewish
- Cervical smear
- Trypanosoma cruzi (American trypanosomiasis)
- Malaria
- STDX (HIV 1 and 2, Hepatitis B and Hepatitis C (NAT-PCR)
- HIV 1 &2, Hepatitis B surface antigen, Hepatitis B core antibody and Hepatitis C antibody
- VDRL (syphilis)
- HTLV I & II
- Chlamydia
- Gonorrhoea

Please note for recipients who choose to cancel/abandon a cycle after a donor has been prepared for egg donation, there is a £1,665 abandoned cycle fee.

^{**} This is an example cost for what we believe the patient would pay to the Lister

^{***} This is what we believe would be the total cost including external fees.

[†] Not included in package as not required in all cases. Please see main price list or enquire for costing.
